TRADE SUMMARY

U.S. SEED EXPORTS TOTAL \$308 MILLION

Exports of U.S. seeds for planting totaled \$307.6 million during July 1985-March 1986, an increase of 7 percent over a year earlier. Vegetable seed exports were up 2 percent to \$108.2 million, corn seed was up 35 percent to \$84.3 million, and soybean seed exports increased 82 percent to \$14.3 million. Forage seed exports dropped 8 percent to \$49.5 million, flower seeds were down 13 percent at \$7.0 million and grain sorghum seeds were 11 percent lower in value at \$20.1 million.

Italy moved into first place as a U.S. seed export market, increasing its imports of U.S. seeds 43 percent to \$47.0 million, including \$20.9 million in corn seed and \$13.2 million in vegetable seeds. Exports to Mexico, the second largest market in value, slipped 5 percent to 37.4 million. Other major markets were France and Japan, with shipments totaling \$33.7 million and \$28.2 million, respectively.

The European Community (EC) continued as a major market for U.S. seeds with exports increasing 37 percent to \$118.6 million, 39 percent of all U.S. export shipments. Corn seed was the largest export item, totaling \$51.2 million, 81 percent above last year. Vegetable seed exports to the EC were also large, valued at \$36.6 million, a 25-percent increase over a year earlier. Other seed exports to the EC included forage valued at \$9.2 million, flower seeds at \$4.4 million, and grain sorghum at \$1.8 million.

Forage and turf seed exports declined 8 percent during the July 1985-March 1986 period to \$49.5 million. Japan was the largest market with \$9.7 million, followed by Canada, Mexico, and Saudi Arabia with \$8.3 million, \$7.2 million, and \$3.0 million, respectively. Alfalfa seed exports slipped 15 percent to \$15.8 million in value and 13 percent to 6,195 metric tons in volume. Major markets were Mexico, Canada, and Saudi Arabia with shipments totaling 2,423 tons, 1,204 tons, and 744 tons, repsectively. Bentgrass seed exports totaled 1,332 tons valued at \$2.7 million. The European Community, Japan, and Australia were the largest markets for this 9-month period. Kentucky bluegrass seed exports were about half of those a year earlier, totaling 1,456 tons, worth \$3.6 million. Canada was the largest market, at 643 tons, and Japan was second at 389 tons. Clover seed exports climbed 39 percent to 2,642 tons, valued at \$5.3 million. The largest clover seed markets were Italy and Japan. Tall fescue and other fescue seed exports have been slow for the period, totaling 1,168 tons and 1,856 tons, respectively -- 39 percent and 28 percent below a year earlier. Orchard grass and ryegrass seed exports were down 16 percent and 19 percent at 980 tons and 7,253 tons, respectively. Timothy seed exports were down 10 percent at 1,555 tons.

Vegetable seed exports were valued at \$108.2 million, 2 percent above last year. Mexico was the largest market with shipments totaling \$16.6 million in value, 23 percent above a year earlier. Exports to Italy and Japan totaled \$13.2 million and \$12.4 million, respectively. Vegetable seed exports to the EC increased 25 percent to \$36.6 million. The largest exports by individual kinds were sweet corn, bean, pea, and tomato seeds with \$14.2 million, \$12.8 million, \$9.5 million, and \$8.0 million, respectively.

Flower seed exports have been slow this year, totaling \$7.0 million for the 9 months, 13 percent under a year earlier. Shipments to the EC, the major market area, were down 9 percent at \$4.4 million, 63 percent of total flower seed exports.

Corn seed exports were up a one-third at 39,046 tons, valued at \$84.3 million. The largest markets were Italy and with shipments of 10,866 tons valued at \$20.9 million and Bulgaria with shipments of 9,202 tons valued at \$11.2 million. Other major markets were France, Greece, and Mexico with 4,777 tons, 2,046 tons, and 2,020 tons respectively.

Grain sorghum seed shipments moved briskly during this period, totaling 32,898 tons, up 37 percent and valued at \$20.1 million, according to export declarations. Reports show shipments of 15,774 tons to Venezuela which include an undetermined amount of grain sorghum for feed use. A revised figure will be included in future reports after review of export declarations by the Bureau of Census. Other major markets for sorghum seed were Mexico and Japan with shipments of 8,136 tons and 1,477 tons, respectively.

Soybean seed has moved well totaling 29,777 tons valued at \$14.3 million, up 55 percent in volume and 82 percent in value. Major markets were Italy, Mexico, and Turkey with shipments totaling 15,669 tons, 5,879 tons, and 4,940 tons, respectively.

Shipments of seeds not specifically identified as to kind totaled 49,292 tons valued at \$23.4 million. Of that, 51 percent or 24,901 tons were shipped to the EC. Largest individual country markets were Saudi Arabia, the United Kingdom, and Canada with totals of 9,234 tons, 7,073 tons, and 5,892 tons, respectively.

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE. Mail this form to: Foreign Agricultural Service
